▶ TFT Displays

▲ Features

- Size from 1.44" to 10"
- High contrast, wide view angle & wide temp. range
- Sunlight readable
- Long-term availability

▲ Applications

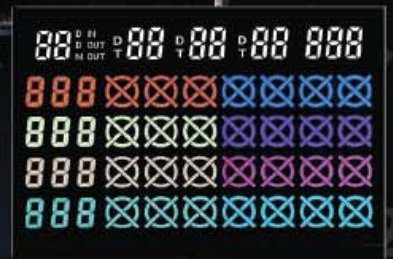

- Automations
- Automotives
- Health medical equipment
- Industrial instruments

▶ EBTN

Enhanced Black Twisted Nematic

EBTN (Enhanced Black Twisted Nematic) LCD technology is the one of the best negative image display with super high contrast ratio of 1000:1, exceeding conventional negative TN, STN and FSTN technology. Their high performances make it an ideal choice for applications ranging from watches to automotives.

▲ Features

- Very dark background with low light leakage
- Super high contrast (1000:1)
- Wide viewing angle (3-side optimized)
- Wide operating temperature (-40°C ~ 85°C)
- No temperature compensation required
- Available in icons, 7-segment and graphic type up to 1/64 duty.

▲ Applications

- Automotives
- Audio Equipments
- Watches
- Multimeters
- Home Appliances
- Information Board
